Sovember 19, 1857.

EALED PROPOSALS, endorsed "Proposals for the complete construction at this department until 2 o'clock the 18th December next for the complete construction of the atom machinery and appendages, and placing it on board a seriew propeller ship-of-war building in the United States navy-yard at Philadelphia.

The offer inmat be for a specific sum for putting the whole in successful operation; must include all putent fees for any arrangements that may be proposed; state the time in which the work will be completed, and be accompanied by the usual guarantee required by law. The name of the establishment in which the work is to be executed must be stated.

he name of the establishment in which us, and be stated, the details of the design and arrapgement of the machinery will be The details of the design and arrapgement of the machinery will be combining.

must be stated.

If details of the design and arrapgement of the machinery will be left with the party whose proposition may be accepted as combining the greatest number of advantages, keeping in view simplicity of construction, readiness of access for adjustment when in operation, and not being subject to derangement in the working parts; it being the object of the department to obtain the most speed and power with the most conomical consumption of fuel, and the greatest stowage of coal which the space available for that purpose will admit.

The boilers to be of iron, with telescopic smoke pipe, which must be placed at the greatest practicable distance from the mainmant; the propeller, with the comextons for hoisting, to be of composition; the propeller, with the comextons for hoisting, to be of composition; the machinery for hoisting, for pumps, apparatus for resultaing, and apparents for of hoisting, for pumps, apparatus for resultaing, and apparentsances of all kinds necessary for the perfect working of the whole, to be of the most approved kinds. The coal-bunkers, shaft passage, two attivariships iron bulkheade, a distilling apparatus for fresh water from which can be made not sees than 1,000 gallons per day; all the tsois and duplicate pieces necessary and satisfactory for an efficient crassing steam ship of war must be included in the proposition, and a list of them must be furnished.

The wood and carpenter work (except the boring out the deadwood for the shaft) accessary to adapt the vessel for the reception of the machinery, bollers, and appendages, will be provided; at the expense of the Navy Department, and it will permit the use of such facilities are in may have for heisting the heavy nachinery on hoard.

For the accommodation of the entire steam machinery and the facilities are in may have for heisting the heavy nachinery on hoard.

For the accommodation of the plank under the beam being 42½ feet, and the height from the top of the unbers to the under side of the beam amidships being 13 feet 9 in

load water line to the top of the keel under the propeller will be 1954 feet.

Steam-engine manufacturers who desires to bid can obtain a copy of the section of the vessel upon making application to the department. The proposal must be accompanied by full specifications and general drawings, having the position of the centre of gravity of the machinery, boilers, &c., marked on them; giving also the capacity of the steam cylinders and area of foot and delivergy valves, and of air pump, and outboard delivering valves, space for steam above the water line in boilers, the fire and grate surface; also the diameter, pitch, surface and kind of propeller, and other principal points, that comparisons can readily be made. There will also be given the estimate of the weight of engines, boilers, water, bunkers, appendages, tools, and spare work, in tons of 2,246 pounds.

The terms of payment will be that when one-fourth of the materials and labog provided for in the contract shall have been completed to the satisfaction of the department, there will be made a payment of one-fifth part of the whole amount of the contract; when one-half the work shall in like manner be completed, there will be a further payment of one-fifth; when the whole shall have been completed, and have made a satisfactory trial of one week, then a further payment of one-fifth; and when the ship shall have performed satisfactorily at sea for a period of three months, then the remaining sum shall be paid.

The repairs necessary during this period from defective workmanshop or materials will be at the expose of the contractor.

The repairs necessary during this period from defective workman-ship or materials will be at the expense of the contractor. The proposals must be explicit, and no qualified or conditional offer will be considered.

[No. 586.] By the President of the United States In pursuance of law, I, JAMES BUCHANAN, President of the United States of America, do hereby declare and make known that public sales will be held at the undermentioned land offices in the State of Missouri, at the periods hereinafter desig-

Fractional townships sixty-seven, of ranges twenty-four to forty

The ELIZOUTE MHLS TRAIN leaves Camden Station at 6, a. m., and 3.30, p. m. Leaves Edicott's Mills at 7.30, a. m., and 7.30, p. m., except Sunday.

W. S. WOODSIDE,

Jan 17—diff Master of Transportation.

Jan 17-dif For Kansas and Missouri River.

THE PACIFIC RAILROAD is now running two daily trains between St. Louis and Jefferson city, connecting with the "Lightning Line" of Miscouri-river packets, that heaves Jefferson city daily on the arrival of the express train, carrying the mails and passengers for Booneville, Glasgow, Lexington, Kansas, Leavenworth, Weston, St. Joseph, and all intermediate points.

Through from St. Louis to Kansas in 48 hours, and from 24 to 36 hours ahead of boats starting from St. Louis.

The Lightning-Line packets are equal to any boats in the trade, and, being required to rou on schedule time with the mills, passengers are never delayed waiting for freight at towns on their way. Through tickets can be purchased in the principal cities of the Uniced States, or at the officer in St. Louis.

Wheeler & Wilson. MANUFACTURING COMPANY'S IMPROVED SEWING MACHINES,

THESE machines combine all the improvements that have been invented. Their extensive and increasing sale, and the unanimous approval and commendation that they have necived, warrant the proprietors in warmly recommending them. They have been in use sufficiently long to test them thoroughly, and have given entire satisfaction.

Among the undoubted advantages that they possess over all others,

are:

1st. Beauty and simplicity of construction, and consequent freedom from derangement and need of repairs.

2d. Unexampled ease and rapidity of operation.

3d. Noiseless movement.

4th. The remarkable perfection of their stitching, and their applicability to a variety of purposes and materials.

WILSON G. HUNT & CO., IMPORTERS,

S. C. Herring & Co.'s Patent Champion Safes. THE subscribers, grateful for past favors, and anding that a discriminating public were bestowing their patronage to that extent that more waverooms were necessary to exhibit all their stock, have enlarged their depot, by opening an extensive ware and salesroom on Broadway, at No. 251, corner of Murray street, opposite the City Hall. This enlargement of wavehouse room, with the recent extensive enlargement of their factory, will enable the subscribers to keep on hand at all times a larger stock of fire and burgfarproof safes than any other establishment in the world. Particular attention will be had to constructing safes for private families to match with other furniture, for the security of plate and jewelry.

A150—

Will keep on hand and make to order all kinds of money chests, van doors, and bank vaults. Hall's patent powder-proof locks for bank or store doors; Jones's patent permutation bank lock; and Crygler patent letter lock, without key.

All the above mentioned articles must conform in all respects to the scaled standard patterns in this office, where they can be examined; and sample patterns will be sent by mail, with any additional information in regard to them which may be requested by manufacturers or others wishing to offer proposals. It is desirable that all the articles be of domestic manufacture.

Beliveries to commence on the 15th day of February next, and occhail of the quantity contracted for to be delivered in equal monthly for months from that date, in monthly or greater proportion, as the confractor may fisd it convenient.

The privilege is reserved by the United States of increasing from one third to one half the quantity of all the supplies abovementioned by giving the contractor one month's notice of such desired increase. Payments will be made on each elivery, should Congress have made an appropriation to meet them, or as soon thereafter as an appropriation shall be made for that purpose. The per cent, of the amount of each delivery will be restrict until the contract shall be completed, which will be forfeited to the United States in case of defalcation on the part of the contractor in fulfilling the contract. Bids will be received from manufacturers or regular dealers only in the articles proposed to be furnished; and none will be considered in which the manufacturer's mill or dealer's place of business is not specifically set forth.
